Every time I close my eyes, I start to drift away
Thinkin' 'bout some days gone by, how time just floats
away
Every time I hear that song, puts a smile on my face
Brings me back to good friends and times that money
can't replace

Every time I close my eyes, I start to drift away
Thinkin' 'bout some days gone by and how they just
float away
Every time I hear that song, it puts a smile on my face
Brings me back to good friends and times that money
can't replace

Everytime I close my eyes I'm lost in a daze
Thinkin' about the things that I really want to say
And all the old games we played at Nickel Nickel
arcade
Workin' at the donut shop, we dreamed of gettin' paid
And when the dishes got dirty, we got cascade
The weather was hot, we got a spot in the shade
Well, no lie before we high, always rockin' fresh fades
Before the spade and the stage we was drinkin' under
age

Every time I close my eyes, I start to drift away
Thinkin' 'bout some days gone by and how they just
float away
Every time I hear that song, it puts a smile on my face
Brings me back to good friends and times that money
can't replace

Now I was drivin' down the ave, we on the radio now
You know the good times we've had, when we're in
front of the crowds
Always holdin' it down for myself and the boys
And back in 95's when we first got live
Now we was 18 years old on the run, havin' fun
Playin' shows in the sun, no bus when we begun
We had a van and a plan, doin' clubs every night
Now the California dream, we be livin' that life

Every time I close my eyes, I start to drift away
Thinkin' 'bout some days gone by and how they just
float away
Every time I hear that song, it puts a smile on my face
Brings me back to good friends and times that money
can't replace

When your time comes and you're numbers up
All you have in life is what's left in your cup
When the whistle blows and the party's over
Don't let 'em drag you out bored and sober
When what's done is done and what's said is said
And the dreams you've had are lying in your bed
Let your memories be filled with no regrets
There's no second chance, there's no turning back so

Every time I close my eyes, I start to drift away
Thinkin' 'bout some days gone by and how they just
float away
Every time I hear that song, it puts a smile on my face
Brings me back to good friends and times that money
can't replace

Hey, I wanna float away, I wanna drift away
I wanna float away drift away, leave today
Hey, I wanna float away, I wanna drift away
I wanna float away drift away, leave today, hey
Hey, hey, hey
