Whats up everybody, it's your boy Johnny Richter  
The same mother fucker you be seein' in pictures  
With a bong, a joint, a pipe, or a big bag  
Of that criggity-cronic that I always seem to have  
Yes I always seem to have a little som'em som'em  
And I always got the pot that keeps the people com'in  
And you, you know can't repeat the words ??  
So I, just sit back, relax, an get high with the women  
Blowin' tokes while getting blown, Lettin' it flow  
Johnny Richter, plus a ho, plus a bag of enduo,  
Ooooooooooooooooo....  
And that's the shit people dream about  
Makes you want to scream and shout  
Wait til' my dick's out your mouth.  
Damn baby, you need to relax on that thing  
Treat that thing like a nice glass piece

Who wants to get their high on  
Listening on this song (get your high on)  
Fire up the vaporizer  
Go clean out that bong (get your high on)  
Who wants to get their high on  
higher than Babylon (get your high on)  
Speak to your messiah  
Come along hit the bong (get your high on)

Simon says.....  
Shut the fuck up if you ain't got no weed  
You better back the fuck up if you got sticks and seed  
D double dash l-o-c I got the bombest  
Everybody claiming that their B.C. is chronic  
Why, do you always smoke when you know you buds  
garbage  
I smoke that- purple kush, green crack, lemon super-  
soaker haze  
So now, you know what the fuck I mean when I say  
GANJA (GANJA) GANJA  
Not a day go by, red eyed, don't ask why  
Tonight's the night for me to let smoke fly  
If your down for the krown everybody get high  
Who wants to get their high on  
Listening to this song (get your high on)

Fire up the vaporizer  
Go clean out that bong (get your high on)  
Who wants to get their high on  
higher than Babylon (get your high on)  
Speak to your messiah  
Come along hit the bong (get your high on)

(Stoned, lets get stoned) (Stoned, lets get stoned)

I wanna get stoned now, relieve my stress level  
Decompress, elevate like a soul rebel  
expand my mind, let my senses run free  
lose track of time, let time grab a hold of me  
I'm uplifted, my spirits risin'  
I'm on couch-lock this ain't surprisin'  
I got the munchies, seein' new horizons  
Eyes goin' southbound now we're vaporizin'  
I smoke a Dutch Dragon, Magic Bud, Skunk-one  
Purple Haze, Donkey Dick, Hindu, Kush, Chocolate  
Chump  
Cotton Candy, White Widow, Cali Mist, and Bubble  
Gum,  
Blueberry, Mothers Finest, making peace with everyone  
And just think, this nights just begun.. ha ha get your  
high on

Who wants to get their high on  
Listening to this song (get your high on)  
Fire up the vaporizer  
Go clean out that bong (get your high on)  
Who wants to get their high on  
higher than Babylon (get your high on)  
Speak to your messiah  
Come along hit the bong (get your high on)

Who wants to get their high on

Fire up the vaporizer

Who wants to get their high on

Who wants to get their high on  
Come along hit the bong

I wanna get stoned now

GET YOUR HIGH ON
