(Life is good you know, plant your see and watch it
grow, ya)

One seed two seed 3,4, and 5.
How many of these seeds can they keep alive so I'm
singin (singin)

Here in my garden (here in my garden)
I'm harvesting everyting with love (love 4x)
and it gets faster now (wo 5x)
I'm planting my garden (planting my garden)
harvesting everyting with love (love 4x)
the sun keeps shinning down (wo 5x)

One seed two seed 3,4, and 5.
How many of these seeds can they keep alive and so
I'm singin (singin)
do delong the fact my gardens sacred
Aint nobody gonna come and rape it aint nobody
gonna come and take it
Its my whole life
Love and passion consumes the reaction
now feed them the feeling that grow them so high
we've been baby the blossoms partaking
what's awesome and spread out the world that's no lie

Its harvest time the moon was shine pure magic in the
air
the universe so miracle like drum sticks on a snare
the cycling the seasons change the healing that repairs
We pass around the sacred pipe then hold it in the air,
we blow the smoke in 4 directions giving thanks each
time
then nothing can reward the gods like fruit at harvest

time
so plant your seeds and love the soil and let water it
each day
and live your life with pure intention good things will
come your way
(so they say)

Here in my garden (here in my garden)
