"On The Run"

In the aftermath of a battle won
we celebrate with the rising sun
Sub Noize tribe
good God we on the run
and we wont stop till the war is won
because we strong like a green beret
special forces of peace and unity
because we strong like a green beret
special forces of peace and unity
day to day song to song the battle rages on
replenishing my soul the mighty power of my zong
when i'm thinking bout back home when i'm wondering
why
how'd i end up on the road what's the effect on my life
why
like a fugitive we on the run
runnin like we're under the gun
you know we do it all for you
because your motives are true
we're on the run till the war is won
our work ain't done
you know we'd rather be with you
on the road doin shows
my life's been crazy
for the past 5 years
its been me and my lady
only good things come for those who truly believe
all the time i spent alone i never thought i would leave
so in life i live and learn
i aint takin nothin back
with the things that have happened that are makin me
sad
another day goes by gotta show respect
its a love that i give and that i dont regret
another town down another show we musta wrecked
another day close to being home i get,
with the tears blood and sweat the sacrifices made,
if there were fans and a P.A. then we wanted to play,
way before gettin paid
way back when we was dreamin',

when i worked the nine to five to cover up the triple

beamin,
when i never thought of leavin have you always by my
side,
how'd i end up on the road what's the effect on my life
why
like a fugitive we on the run
runnin like we're under the gun
you know we do it all for you
because your motives are true
we're on the run till the war is won
our work ain't done
you know we'd rather be with you
??? ???i be penetrating your zone
the freedom fights on we multiplying like clones
every day's a new day gettin high feel lovely
enlighten minds we're trying to rise above see
for too long they haven't treated us right
their motives wrong cause its the people they fight
we sing this song so everybody unite
freedom fighters keep pushin on
in the after math of a battle won
we celebrate w/ the rising sun
the sub noize tribe
good God we on the run
and we won't stop i say until the war is won
good God we run for miles and miles and never tire
we still love those people you know we are inspire
we sing this song until the people unite
freedom fighters fight on
like a fugitive we on the run
runnin like we're under the gun
you know we do it all for you
because your motives are true
we're on the run till the war is won
our work ain't done
you know we'd rather be with you
