We are party people  
We are what you call  
Self made party monsters  
So welcome to the bar

(Daddy X)  
First of all  
Like to welcome y'all  
To the 13th annual Kottonmouth Ball

Round here anything goes  
Whippies, Tippiies, and Trickity Hoes

Bass tone  
Rattle ya bones  
SC tabs and fat bong loads

Sun goes up and comes back down  
Got a little bit of everything floatin around

(The Dirtball)  
We the Party Monsters setting the bar  
Dedicated to substance abuse, take a whiff of my jar  
It be the mix of a buncha different ways  
To get down, cop a buzz, and then spray  
Friends from the liquor that I'm poundin everyday

Right now, partied up on the way to the bar  
So let's play

You take a shot, I take a shot, You take a shot, We take  
a shot  
Hey

We are party people  
We are what you call  
Self made party monsters  
So welcome to the bar

Party Monsters a special guest has just arrived  
Please direct your attention to the red carpet

Here comes none other than the most sinister monster  
of them all, TECH N9NE

(TECH N9NE)

All the home girls love me at hooters  
I'm straight Uber  
MC searchin for that cooter  
They know my roto rooter's  
A straight shooter

Baby all around the world I be hootin  
Same time I be soozin out the ooshin  
I mean ocean

And I'm in motion  
Party pulsing, then I'm pokin

Techa Nina gettin that loot, that we rolla  
Haters see me and they try to shoot, their Evola  
Cause I got their women, gettin lose  
Every hoe I'm gettin wet cause I make them say, ooh

We are party people  
We are what you call  
Self made party monsters  
So welcome to the bar
