Oo, oo

Peace of mind, peace of mind

We want peace whoa, we want a peace of mind  
It's times like this I wanna leave the world behind  
We want peace whoa, we want a peace of mind  
I wanna take a little piece of my herb and get this whole  
world high

Some body please explain  
'Cause all we want is to be treated the same  
Just live in peace with peace of mind  
Enjoy the earth, this life and my kind  
(My kind)  
Right now it's time to celebrate  
Relax, kick back put your feet up forget to hate

We want peace whoa, we want a peace of mind  
It's times like this I wanna leave the world behind  
We want peace whoa, we want a peace of mind  
I wanna take a little piece of my herb and get this whole  
world high

Is it me or has this world gone crazy?  
Last chance, last dance force maybe  
Bombs are droppin' body's poppin' like the last days  
Now I finally understand how crime pays

It's the plan that's designed through corruption  
Total domination, mass destruction  
Or mass distraction you do the math  
When 1 plus 1 don't equal 3 no

It's like a sickness that they don't want the cure for  
Apocalyptic and only been sured for  
It's like we're doomed and were headed for our last  
days  
I wanna peace of mind, everlastin'

We want peace whoa, we want a peace of mind  
It's times like this I wanna leave the world behind  
We want peace whoa, we want a peace of mind

I wanna take a little piece of my herb and get this whole world high

We want peace whoa, we want a peace of mind  
It's times like this I wanna leave the world behind  
We want peace whoa, we want a peace of mind  
I wanna take a little piece of my herb and get this whole world high

Kottonmouth Kings need to open up your mind  
With the kind come and get a dose of reality  
Think about the good things in life  
Because negativity only brings fatality

Fatalities bring broken hearts, tears, flowers  
Caskets people, crying, love ones dying  
I see my friends going down the wrong path  
So I realize keep on striven stay true to myself  
And try to find my peace of mind thank you baby

We want peace whoa, we want a peace of mind  
It's times like this I wanna leave the world behind  
We want peace whoa, we want a peace of mind  
I wanna take a little piece of my herb and get this whole world high

We want peace whoa, we want a peace of mind  
It's times like this I wanna leave the world behind  
We want peace whoa, we want a peace of mind  
I wanna take a little piece of my herb and get this whole world high
