[Richter]

If you dont stand, stand up for something  
Then you will fall, youll fall for anything, yeah

[Daddy X]

Lifes kinda funny man  
Little crush you hear like this beer can  
Youll stop your soul and watch you blow away, yeah  
I know youve heard all this before  
So ill save your ears from gettin bored  
Ill tell you this man, I dont roll that way, no way  
I take the bull straight by the horns  
I grab the rose and I cut the thorns  
Cause I was born to roll tight to my dyin' days, yeah  
They wanna see us suffer man  
Wanna smack you down with their pimp hand  
They will make you dance and tax you til your grave  
But im not a slave

[Chorus]

If you dont stand, stand up for something  
Then you will fall, youll fall for anything  
You got to stand, stand up for something  
Or you will fall, youll fall for anything yeah

[Richter]

Now this one goes out to all my brothers n' sisters'  
No matter if your home, locked up, or unlisted  
Use your voice, use your mind and your soul  
To make a change in this world for the good of us all  
But choose your battles, you gotta choose em wisley  
You gotta pick your wars, the ones that are worth  
fighting  
Cause its kill or killed in society today  
If you dont stand for what you want  
Then it gets swept away,

By the big companys and ...?... monopolies  
Or our government that picks on is people on the  
streets  
We need to speak, use our freedom of speech  
If you believe in what you preach

Hey now well then preach  
Let them know what you think, let them know where you  
stand  
And if you feel it in your gut then stand like a man,  
stand  
Total proud stand for those who cant  
Get up and take a stand til you MAKE em' understand

[Chorus]

If you dont stand, stand up for something  
Then you will fall, youll fall for anything  
You got to stand, stand up for something  
Or you will fall, youll fall for anything yeah

[D-Loc]

Stand up and stay true, you gotta always be you  
No time for ?blinks? you gotta do what you do  
Know what you what, who care what who think  
Born to be a leader, watch you follow my lead  
Raised by a tough man, teached me well  
Taught me believe in myself and good health  
Work hard, be stong, and dedicate yourself  
Make wise decisions and invest your wealth  
So I stand, like a man, with my family, for something  
yeahh

[Chorus]

If you dont stand, stand up for something  
Then you will fall, youll fall for anything  
You got to stand, stand up for something  
Or you will fall, youll fall for anything yeah
