Alright gettin wasted and gettin your high on.. its 2

Different things.
When you get your high on your kinda like just trippin

In the head. ya know what I mean? you're high but your

Funky. ya know what I mean?
So when you get wasted, to me that's like gettin drunk.

Ya know get you gettin a little sluggish?
When you get your high on in wondering way you just

Kinda wondering around.
When you're wasted its like God Damn! I just wanna

Lay..i just wanna lay down ya know what I mean?
When you wasted yous like fuck that shit! I wanna lay
down. wasted.
