Skip the remote location of home  
A healthier dose of drinks I suppose  
Is what everyone needs tonight  
It's what everyone needs tonight  
If a party gets thrown for reasons we know  
The days at work, and nights at home  
Then, why not tonight  
At least come for a while  
A bottle of wine

There's nothing worse than Saturdays alone  
Saturdays alone  
On top of having Fridays at home  
On top of having Fridays at home  
Your whole weekend alone

Why not tonight  
At least come for a while  
A bottle of wine

There's nothing worse than Saturdays alone  
Saturdays alone  
On top of having Fridays at home  
On top of having Fridays at home  
Your whole weekend alone

Why won't you answer calls  
You never choose the right night  
And it's obvious that you know

There is nothing worse than Saturdays alone  
Saturdays alone  
On top of having Fridays at home  
On top of having Fridays at home  
Every last Friday at home  
Your whole weekend alone
