When I walk down the street  
Everyone can feel the heat  
I know how to drive you out of your mind  
I know what your thinkin' when you look in my eyes

I've heard every line so don't waste my time  
I'm lookin' for the one the only one  
If I smile and turn away  
Maybe this is your lucky day

You want me, maybe baby I want you to  
Words won't keep me if I don't believe in what I see  
If you catch me will you know what to do with me  
You want me and maybe I want you  
I like them funny, sexy and smart  
I want a lover with a big big heart  
If you.re the one that.s made for me  
My name is chantal, ya habibi

All or nothing is the way I live  
I take nothin' for granted and I love to give  
I'll never change, I love who I am  
I need a real man

You want me, maybe baby I want you to  
Words won't keep me if I don't believe in what I see  
If you catch me will you know what to do with me  
You want me and maybe I want you
