"Anniversary"

Visit "[Anniversary](#)" on MotoLyrics.com

You seem so nervous and so natural to me
As a major operator you know what say
You suck me in then spit me out I dont wanna play
You made a promise broke it on the same day

When you told me what you wanted and I wanted you
You said you needed help and I wanted to
But I couldnt take this broken anniversary
I made the same mistake on the very same day

It was a good day and a bad day
It was good friday then the weekend
And if its anything worth saying
Its bring on the weekend

Its a broken hearted ancient gentle memory
I remember perfect moments and I wish theyd stay
You cast aside a vision, yeah, to let me know
You dreamed and dream and then you had to let it go

When you told me what you wanted and I wanted you
You said you needed help and I wanted to
But I couldnt take this broken anniversary
I made the same mistake on the very same day

It was a good day then a bad day
It was good friday then the weekend
And if its anything worth saying
Its bring on the weekend

It was a good day and a bad day
It was good friday then the weekendx2
Bring on the weekendx2

You told me what you wanted and I wanted you
And said you needed help and I wanted to
But I couldnt take this broken anniversary
I made the same mistake on the very same day
