Im not addicted anymore
I feel so good I want some more
Ive given in, and now I'll take it again
So come with me my friend

Well come with me my friends x3
Well come with me

Im not so deep that I can feel so sweet
And dont tell me that Im your faithless creep
Im fucking up with the system again
And come with me my friends

Yeah come with me my friends
Well come with me my friendsx2
Well come with me

And the face paint and matches no need to be there
And since theres no difference theres no need to
compare
And you see me, I, Im flying
And you see me there, Im dying

Come with me my friendsx3
Come with me
