They got freedom of speech, they're protected by police. What a good combination, to breed right wing pigs. National Socialism will never rule shit again But racism is a growing problem, There's a lot of Nazis on the streets. We can't remain in this silence, There's no better choice than to stand up and fight Against prejudice and segregation. Watch out white pride 'cause the ghetto will rise! You can suck my Latino dick and kiss my black ass, For all the fascist motherfuckers here's a message for you: Fuck you!
