Verse 1:

This is good
This is great
And if I remember that it's not too late
That this is love
And this is hate
And I got a feeling that I hope it's not too late

This is good
Less is more
This isn't given and it's not a reward
This is yours
What's yours is mine
So let's get with it/not waste our time

Chorus:

Cause you're larger than life
It's how I remember you
The harder I try
I can't forget you
The more I learn
The less I know
If this is a feeling that I wanted to grow

Cause you're larger than life
That's how I remember it
The harder I try
I can't forget it
The harder I fall
You sit there laughing
Why'd you come here
Watch me dancin' on the floor

Verse 2:

Well if I am feared
Then I will not need
I will love you without all of my greed
But if you lie

You will be caught
This is a lesson I don't need to be taught

Larger than life
Greater the fear
If you love me I will always be here
It's your life/and you can choose
Well this is a fight I'm not willing to lose

Chorus

Instrumental

Chorus part 1 x 3

Cause you're larger than life
Yeah you're larger than life
Yeah you're larger than life
Ohhh Yeah
You're larger than life
Yeah you're larger than life
Yeah you're larger than life
Ohhh Yeah
You're so much larger than life
