"Mass Murder Conspiracy"

Visit "[Mass Murder Conspiracy](#)" on MotoLyrics.com

Treated with neglect, They just want to get rid of you.
Do you still believe in public health care? They want you
dead to reduce their cost. I don't want your drugs, you
can't keep me numb! Fuck your phone advice, give me
a real treatment now. It's a mass murder conspiracy!
They could have cured her cancer but she just found
that out too late, She didn't get the right tests in time
and now she's dead. Maybe he would never hung
himself, if he had some psychotherapy, He just got
some pills instead and now he's dead. Your mind's
about to blow up, Your body is all falling apart. They
don't give a fuck about your pain, Their duty is to save
money for the state.
