I like an old guitar  
Playin' a Gosdin song  
In a smoky bar  
That's what turns me on, yeah

If that makes me a little old school  
Go ahead and call me yesterday's old fool  
If that makes me a little throwback  
Throw it at me, don't worry, I can take that  
Call me hick, hillbilly Hell I'm proud to be What makes  
me

I like a 60's truck  
The kind that's solid steel  
The kind that always runs  
It takes a man to turn that wheel

If that makes me a little old school  
Go ahead and call me yesterday's old fool  
If that makes me a little throwback  
Throw it at me, don't worry, I can take that  
Call me hick, hillbilly Hell I'm proud to be What makes  
me

Yeah, I don't swear in front of no woman  
I answer yes, sir to my old man  
I drink my liquor with a side of nothin'  
Yeah, good and country that's what I am

If that makes me a little old school  
Go ahead and call me yesterday's old fool  
If that makes me a little throwback  
Throw it at me, don't worry, I can take that  
Call me hick, hillbilly Hell I'm proud to be What makes  
me
