Come my little venus
Can?t you feel, it?s in all of us
Like the light, we see you soon give up yourself
And dive into the moon
And I don?t mind being with you
Knowing I?m by myself
There?s a river in all of us that?s dry
As you are in me
There?s a river in all of us that?s dry
As you are in me

Come my little venus
Wrapped in shadows, yeah you?re one of us
And I hear the footsteps inside your head
Walking, trying to find yourself
I found myself in you
Let me in, let me breathe
Yeah I found myself in you
Oh yeah

So come my little venus
Come my little venus
Come my little venus
Come my little venus

You scream in silence
But I can hear you

Well come my little venus
Can?t you feel, it?s in all of us
Like the light, we see you soon give up ourselves
And dive into your room
And dive into your room

And come my little venus
Come my little venus
Come my little venus
Come my little venus
And come my little venus
Come my little venus

Come my little venus
Can't you feel, can't you feel
Now you're one of us
Like the light, we'll see you soon give up ourselves
And dive into your room
And I don't mind, I don't mind

Come my little venus, venus, venus
Come my little, oh my venus
My venus, my venus, my venus, my venus, my venus
And come my little venus.
