Why do you keep saying  
That I am staying?  
When I'm gonna go tonight  
Every time I talk  
Every time I walk  
You always start a fight  
Don't wanna feel like this  
Don't wanna be with you  
Every time we kiss  
I already knew (that)

Chorus  
We weren't meant to be together  
I don't want us to last forever  
Can't you see that  
It's hard to believe  
We just wrecked our life  
You know it too don't you lie  
I wanna go away  
Don't wanna, Don't wanna stay

I don't know why  
Every single time  
You always have to be  
A big fright  
I'm terrified  
Yeah yeah sarcastically  
Your not scary  
Your trying to hurt me

Chorus  
We weren't meant to be together  
I don't want us to last forever  
Can't you see that  
It's hard to believe  
We just wrecked our life  
You know it too don't you lie  
I wanna go away  
Don't wanna, Don't wanna stay

If you wanna be with me  
You better put your tux on

Cause I'm formal-kind-a-girl  
Come on, Come on Everyone

If you wanna see me  
You better put your glasses on  
Cause there's only a tiny chance  
Your gonna see me through everyone

Chorus  
We weren't meant to be together  
I don't want us to last forever  
Can't you see that  
It's hard to believe  
We just wrecked our life  
You know it too don't you lie  
I wanna go away  
Don't wanna, Don't wanna stay

Chorus  
We weren't meant to be together  
I don't want us to last forever  
Can't you see that  
It's hard to believe  
We just wrecked our life  
You know it too don't you lie  
I wanna go away  
Don't wanna, Don't wanna stay

Don't-t-t-t  
Wanna  
Don't-t-t-t  
Wanna  
Don't-t-t-t  
Wanna  
Don't wanna stay

Don't-t-t-t  
Wanna  
Don't-t-t-t  
Wanna  
Don't-t-t-t  
Wanna  
Don't wanna stay

Don't wanna stay

Don't wanna stay
