Not used to being hurt
Not used to mean words
I think that life has turned it's back on me
Not used to being shushed
Not used to being pushed
I think that I have stumbled on my feet

Chorus
Never felt like this
Never felt like that
What's happening?
I think I'm gonna be okay
Even though things have changed
I know it'll seem a little strange
But life's just
All around
Inside out
Up side down, Up side down, Up side down
All around
Inside out
Up side down, Up side down, Up side down

Never been in fights
But it's gonna be alright
Cause the wheel will turn back my way
Not used to being scared
When nobody was there
But I know that I will get my say

Chorus
Never felt like this
Never felt like that
What's happening?
I think I'm gonna be okay
Even though things have changed
I know it'll seem a little strange
But life's just
All around
Inside out
Up side down, Up side down, Up side down
All around
Inside out

Up side down, Up side down, Up side down

I think I'm gonna make it
I'm not gonna fake it
I think I'm gonna make it
Not gonna fake it, fake it, fake it, fake it.
When I get out of this mess
I'll be the one to confess
That
Never felt like this

Chorus
Never felt like this
Never felt like that
What's happening?
I think I'm gonna be okay
Even though things have changed
I know it'll seem a little strange
But life's just
All around
Inside out
Up side down, Up side down, Up side down
All around
Inside out
Up side down, Up side down, Up side down

DOWN!
