Open up your mind
The stinging comes free
A whole entire world of beings
This captivates and makes sense in the classroom
You can not scrub to try and free yourself

(Chorus)

They're free and walking live
They make the skin their own planet earth
The fear that paints our mind
Living beside, living inside, living beings on us

(Verse)

Feeling everything
Moving all at once
The body just a dead skin cell graveyard
I try to guess just when I'll feel this old cold chill
I count the noises and my breathing rate

(Chorus)

They're free and walking live
They make the skin their own planet earth
The fear that paints our mind
Living beside, living inside, living beings on us

(Bridge)

(I want this, I need this)
Did you get my letter?
I sent in good faith to you
Your crawling skin's not mental
When you feel it, it's just a spirit touching you
Moving in, let it rain

(Outro)

I want touch, I've lost us
I hold the pictures in trust
