(Verse)

Another night of showing my charm again and I wait for
you

To drop your guard and let me in so I can stop making
myself your fool

(And I hope your)

(Chorus)

Very entertained by this charade

And I'm not happy without

My costume for this masquerade

And I'm not happy without

(Verse)

Just pick me up so you can drop me down again

Along with all the smooth things that I should have said
to you

(And I hope your)

(Chorus)

Very entertained by this charade

And I'm not happy without

My costume for this masquerade

And I'm not happy without

(Bridge)

Just tell me why you can not get it

I'm peeling off my skin, I'm naked

Do you feel it inside you, Still I can't find you

Just decide

Drop it down or pick it up

(And I hope your)

(Chorus)

Very entertained by this charade

And I'm not happy without

My costume for this masquerade

And I'm not happy without
