Just throw your arms around me
Our breath in a steam form
You shiver and I pull you next to me
A hidden feeling showing
Just touch but don't rewind
You run your lips across my face
And now I bleed
(Pre Chorus)
I want to bleed here with you
(Verse)
You ran your nails down my back
My arm constricting you
I feel your teeth upon my neck
As you bite down
Just knock me out of focus
A frost touch to make me blind
The ice will melt, the water comes and we will drown
(Pre Chorus)
We will, we'll drown
I want to freeze here with you
(Chorus)
And it feels like I'm perfect here tonight

To all of my useless fears good-bye
(Bridge)
(And I will never let go)
On the wings of angel's you will fly
The air has froze you
I kiss your lips now cold to survive
The air has froze you
You're lying still just hold your breath
The air has froze you
A moment I'm not too soon to forget
The air has froze you
(Has froze you)
(Chorus)
And it feels like I'm perfect here tonight
To all of my useless fears good-bye
And it feels like I'm perfect, feels like I'm perfect here
tonight
To all of my useless fears good-bye
