I lay around and I wonder  
Is this really too much to figure out  
I'm spilling under, but I'd like to  
Take you out for a ride if I can  
(Chorus)  
I feel so low  
But I'm better now  
I don't feel that far from the bottom now  
I sink below  
But I'm under this  
I don't feel that far from Leviathan  
(Verse)

My lungs; collapsing, and I strain to  
Take in another breath of life  
The water flows in, replacing  
The air that I use to get me by  
(Chorus)  
I feel so low  
But I'm better now  
I don't feel that far from the bottom now  
I sink below  
But I'm under this  
I don't feel that far from Leviathan
