Everybody wanna be thugs  
They really don't 'cause if they lived my life they'd  
understand  
Niggaz for they self, no love  
And it ain't nothin' better than a gun in hand

Everybody wanna be thugs  
They really don't 'cause if they lived my life they'd  
understand  
Niggaz for they self, no love  
And it ain't nothin' better than a gun in hand

I'm lookin' at all my niggaz on the corner  
Still trying to come up on something like some paper,  
cash money  
Two-double-O-zero, niggaz is desperate to make it  
Battlin' Satan, but the plate that he made us looks so  
tasty

Temptation over took my devils persuasion  
Makin' me chase the paper while trying to break 'em, I  
blaze 'em  
Then I raise up, nigga that's the way thugs do it  
See it don't say nothin' just to find out we kinda stupid

In the streets we play for keeps, niggaz ain't comin'  
Back for revenge or whatever, loc we havin' none of  
that  
So scandalous, you better keep your protection  
'Cause the grass and the blunts ain't the only thing we  
wet up

Everybody wanna be thugs  
They really don't 'cause if they lived my life they'd  
understand  
Niggaz for they self, no love  
And it ain't nothin' better than a gun in hand

See, I've been runnin' from the po-po ever since I was  
11  
Nigga bellin', ain't tryin' to get kept and slept in the  
cell, man

A lot like my daddy, but then again I'm like myself  
Keep my nose in my business and worry about nobody  
else

Got a mind of my own aside from Bone  
So nigga don't think that you can run up  
And test me when I'm alone 'cause I got the chrome  
Talk mo' shit I'm still a street thug, but I make mo' hits  
(Mo' hits)

Platinum packin' magnum never leave the house  
without it  
And if he 'bout it don't sing about it nigga bring up out  
that shit  
Thugline, frontline, nigga it ain't scared, we done time  
Leatherface is on the rampage, murder mangler,  
strangler

What you came with it just ain't enough  
To tame the thug, we aim to drain the blood from your  
skull  
Rappin' but we dangerous, dangerous

Everybody wanna be thugs  
They really don't 'cause if they lived my life they'd  
understand  
Niggaz for they self, no love  
And it ain't nothin' better than a gun in hand

Everybody wanna be thugs  
They really don't 'cause if they lived my life they'd  
understand  
Niggaz for they self, no love  
And it ain't nothin' better than a gun in hand

Now to my youngsters with they guns  
Out on the corner perfomin' tryin' to be soldiers  
Just remember that I told ya, slow down, down, down  
I know you wanna be a thug, and do what we done

But if it ain't inside your blood then this  
Ain't the game that you tryin' to play  
Just like one of my niggaz tried to hang  
And he died in a day aw, shame, shame, shame

Bullet hit him in the brain  
And he was a thug nigga, you get the picture?  
Picture niggaz in a single file line  
All crying, upset because their niggaz died, nobody  
know why

It's so many dying 'cause too many trying to shine  
We all trying to swang on the same goddamn vine  
It's about that time for the thugs to unite  
And let this motherfucker burn tonight  
(Tonight, night)

If you a thug get up and join this thug nation  
(Thug nation)  
We got guns waitin'  
(Guns waitin')  
Soon as the enemy run up, blaze 'em  
(Blaze 'em)

Everybody wanna be thugs  
They really don't 'cause if they lived my life they'd  
understand  
Niggaz for they self, no love  
And it ain't nothin' better than a gun in hand

Everybody wanna be thugs  
They really don't 'cause if they lived my life they'd  
understand  
Niggaz for they self, no love
