It was too late, to be concerned
So the story goes, you live and you learn
Well well well
Ohhhhhhhh
Well well well

Grew up in the ghettos of Cleveland man
I've seen so many crazy things you wouldn't believe me
man
I've been there 17 I'm out on my own tryin to be grown
Others tryna to keep from fallin out while I try to reload
Nigga started from zero doin it the way that we know
Cant get niggas for Ceno sellin em kind of fit though
I did it to make a living even though I was silly
That's why today I bow down and say lord oh would you
forgive us
But I was hustling struggling niggaz it was hard
Gotta do something cuz nothing aint gonna help at all
I want it better but it aint
I wanna change my ways but I cant

It was too late (much too late)
To be concerned (for a nigga to be concerned)
So the story goes you live and you learn
Well well well (2x)

With no sense of direction I'm head down to the justice
center
I think it was 6 in the morning tryna rush me nigga
When they cuff me nigga
They tryna scuff me nigga
But couldn't budge a nigga
Cuz I'm a thugsta nigga, You hear me
But I'm in the cell now, been around jail bound
Steady pacing nigga waiting for my so called fair trial
They tryin to do stuff to force me up but I'm still sittin
I'm stuck in the system in the jail still trippin listen
Well there be steel walls drivin me nuts
That's why I jump up every time they shut
I guess I ain't so tough
Wish it was better but it ain't

I wanna change now but I can't

It was too late (much too late)
To be concerned (for a nigga to be concerned)
So the story goes you live and you learn
Well well well
Too late for me to be concerned now
All a nigger can do is live and learn now
That's the only way to save yourself
When the drama that you gave yourself
Well well some of my niggas are still living wrong
Some of them niggas don't intend on livin long
Some of them niggas gotta get killed to learn
And it's too late to be concerned
That's why you live n live n learn live n live n learn
you live n live learn live n live n learn

It was too late (much too late)
To be concerned (for a nigga to be concerned)
So the story goes you live and you learn (2x)
