Pump your fist if you're with me  
Pump your fist up if you're with me  
Artillery, yeah  
Pump your fist up if you're with me  
Let us be victorious, be victorious

Pump your fist if you're with me  
Pump your fist up if you're with me  
Artillery, yeah  
Pump your fist up if you're with me  
Let us be victorious, be victorious

Hut 1, hut 2, hut 3, hut, hut, hut, hut

Silent warrior listen to the story

The world war has begun  
We're gettin' ready to fight  
And if you win or either die  
Then don't become an outsider

Spittin' fire, fire baby  
With plenty ammunition  
(Ammunition)  
Complee and nigga, I've been waitin' for this  
Payback is a bitch

And the bitch is on the period figure  
You got niggas with attitude behind the trigger  
Steady we be pumpin' our fist and  
Black fatigues we don't surrender

You wanna deal with us  
Gettin' ready for split us come and get us  
And when you come get us  
Remember bitch you gots to kill us

And you can surely believe that I  
I'm bringin' all my ammunition with me tonight  
Crooked coppers tryin' to kill us everywhere

'Cause we won't get the mark of the beef

No, not me  
Stay silent warrior  
Silent warrior

Ready to get for combat  
When we aim the bomb at we usely contact  
Heated heavily buckin' steadily lay 'em all flat  
Combat

You motherfuckers I repeat, retreat  
With plenty heat you'll be defeated  
Oh, them bloody murder, murder baby  
Silent situation

Is always the perfect assassination  
Now to the graveyard nigga where your braveheart,  
you play hard  
Now it's time for me to break march and take charge  
We journey to the killing fields

Where the murder and the shit is real  
Oh Lord, sweet Lord, sweet Lord, sweet Lord, sweet  
Lord  
Comin' forth to carry me home  
(Me home, me home)
