Krayzie Bone:

See me growing, see the height now see me glowing,
see the light now see me zonin, floating like a light
breeze see me blowin, (ride by)
never stop i keeps it rollin' right until the top ima keep on
growing high, i look down on all of my haters and i
just smile

Alicia Keys:

When the wind is blowing in your face,
Sometimes in life you dont see straight,
pray to Him, He will show

Chorus

Krayzie Bone:

Nigga let the haters hate, i can take on all the weight,
of the world i still wont break
wait till you see my smile

Nigga let the haters hate, i can take on all the weight,
of the world i still wont break
wait till they see your smile

Verse:

Man, everyday living's so hard sometimes i wonder
how im still living my God,
cant even focus cus my vision so dark, tryna make it
too the bright light, dealin these cards i was given,
my past life is so vivid, that i dont even wanna revisit or
reminisce there,
i dont wanna drift there i wanna get lifted up, resist it
just get up and get there.
ill never let the struggle keep me down, ima bounce
right back ya'll see me now, (see me now)
im into this here knee deep now, and when i make it out
everybody see me smile, (see me smile)
Ima take it to the top i told ya, ima muscle then I'll be a
God's soldier,
and when i make it I'll be smiling at the haters so hard
ill be ridin like i aint never know ya

Chorus x2

Verse 2

I try to focus but distraction is callin, the chaos is
zooming, confusion is stalking,
i feel like everybodys scheming against me and they
trying to convince me that im doomed when it all ends,
but im a comptetitor muscle from the hard wind, i aint
never been scared of the struggle i get all in,
and when its all said and done im standing on the top
of the world feeling glad cause i won one,
and i aint greedy i just want a little slice of the pie,
so gimme some of that American dreaming,
never gonna get it, it seems im fiendin,
looking for the high life, minus the weed man,
Ima take it to the top i told ya, ima muscle then I'll be a
God's soldier,
and when i make it I'll be smiling at the haters so hard
ill be ridin like i aint never know ya

Chorus x 2

Alicia Keys:

When your head is in a certain place,
Nobody round to make you safe,
Stand strong and you will grow

Chorus
