We heard you say he was made in heaven
And he loves you one hundred percent
We saw him out just the other day
He ain't totally innocent

He was dancing too close for comfort
You know what they say, when the cat's away...

CHORUS:

One thing leads to another
One touch is a touch too much
One spark could start a fire
Watch out, he's gonna break your heart

With a boy like that, you can't trust anyone

They'd give anything for just one kiss
With lips like that, don't let him out on his own
He's impossible to resist

After all, it's just human nature
There's only so much that a girl can take

CHORUS

He was dancing too close for comfort
You know what they say, when the cat's away...

(CHORUS repeat to fade)
