Overreaction and you've lost your path  
Faceless and hateful, emotional psychopath  
Overreaction now you're not the same  
Become someone else, hate becomes Alive Again

Alive Again, Overreaction  
Search for what you need  
Cause for a conflict  
Schizophrenic personality  
Overreaction, will this ever change?  
Reality fades, hate becomes Alive Again

Alive Again

In my wildest dreams you are mine  
And your weakest spot i will find  
I am not affriad to let it rise  
Let me overrun your mind

Come walk with me, have no fear  
And when you at least expect it it appears  
It lingers on my favourite game  
No matter how it comes Alive Again
