In a dark and brutal land  
Not far from here  
Lived a mighty wargod  
The slaves were all afraid  
No one stood up against him  
No one tried  
He lived by his sword  
Till he died

Mighty wargod fight till death  
Hunt the people let no one rest  
Show your planet who is the lord  
Take the weapons made to strike

Fight under an immortal command  
Spread fear across the land  
Always trusting holy rule  
Death is your saviour  
Spread fear across the sea  
Kill yourself to be free  
The only commander of the world  
Death is your saviour

In the night a constant fight  
Death is in the air  
Banshees crying through the sky  
You don't know where  
Look up high the corpses will live  
All the genocide  
Soldiers march on unholy ground  
In front death is riding

Mighty wargod fight till death  
Hunt the people let no one rest  
Show your planet who is the lord  
Take the weapons made to strike

Death is your saviour  
You're gonna die  
Burn in the fire  
Scream across the sky  
Death is your saviour

You're gonna die  
All the survivors  
Can hear you cry
