Ending all religions  
Changes yet to come  
Whole new situation  
Fear became too strong

Send a spark of hatred  
To where I cannot rest  
My fate's depending on me  
Pushed to the test

Depression unrest  
As I watch the sky  
The sparks will keep on fallin'  
And I despise you now

Praying for forgiveness  
Waiting for a sign  
It cannot be forgotten  
A symbol used to shine

Feel the spark of hatred  
Spreading like some pest  
Emotional mutation  
Curse of the west

Depression unrest  
As I watch the sky  
The sparks will keep on fallin'  
And I despise you now

Depression unrest  
As I watch the sky  
The sparks will keep on fallin'  
And I despise you now

Depression unrest  
As cultures die  
The sparks will keep on fallin'  
And I hate you now
