Final hour is coming, closing chapter of time  
As the embers fade not even the strong survive  
Great catastrophe told by the prophets and wise  
Those who believe in Gods start praying their prayers  
of lies

Howling wind, pouring rain  
Rising tides, endless days  
For the sun and the stars  
Never to rise again

Whores and angels flee as Babylon burns  
Summoned into the void never to return  
As the waters rise the grand leveler leads  
The future of the new order drowning to funeral beats

Kingdom, empires fall  
Rulers, conquerors crawl  
No more urge to be free  
No more hate tyranny

With the fire comes the storm death will call you  
Wish you were never born  
Infernos demons crawl from the deepest abyss  
Dawn of a dying race apocalypse

All comes to an end, roots of all life  
Fear greed hypocrisy, jealousy lies nations tribes every  
race  
All that has been done, godforsaken  
All that we've been able to learn will be wiped from the  
earth's face

All comes to an end, roots of all life  
Fear greed hypocrisy, jealousy lies nations tribes every  
race  
All that has been done, godforsaken  
All that we've been able to learn will be wiped from the  
earth's face

With the fire comes the storm  
Death will call you'll wish you were never born

Infernos demons crawl from the deepest abyss  
Dawn of a dying race apocalypse

With the fire comes the storm  
Death will call you'll wish you were never born  
Infernos demons crawl from the deepest abyss  
Dawn of a dying race apocalypse, apocalypse
