[The announcement to "Europe....." on this live recording is an anti-racist, anti-Nazi statement that I thought should appear on this compilation even though - or maybe because - it's in German.]

Indecisive government  
Regardless of brutal punishment  
Indestructable regiment  
Twice as many lives  
Perversion never too bizarre  
Can't remember who we are  
Influenced us to get this far  
Emotions paralyzed

Monotony provokes the escalation  
Terrifying industry protect departed nations  
Can't get back together again  
Leaving Europe after the rain

Acceptance of neo-fascist  
Persecuting anarchists  
Put the wrong ones on the list  
Let the new age begin

Monotony provokes the escalation  
Terrifying industry protect departed nations  
Can't get back they're going insane  
Leaving Europe after the rain

Can't look at the world the way I did before,  
Can't ignore they've all mutated into materialistic  
Parasites  
Can't forget the pictures I saw on television  
Can't close my eyes on this abstract spectrum  
Tomorrow I'll be gone  
Forcing them to support without asking  
Imprisoned in factories for a lifetime  
Reasons are becoming meaningless  
Optimism leaves the bitter taste of hopelessness

Tomorrow I'll be gone

Monotony provokes the escalation  
Terrifying industry protect departed nations  
Can't get back they're going insane  
Leaving Europe after the rain

A complex keeps the industries  
In motion, for some new disease  
Bound to those who still resist  
Yet harder to find

Monotony provokes the escalation  
Terrifying industry protect departed nations  
Can't get back they're going insane  
Leaving Europe after the rain
