"Future King"

All seen before it goes on forever more
This time your truth just offers nothing new
Walking down the empty streets of never-ending
tragedy
Nothing here can touch my heart this loneliness tears
me apart

Beneath the dark deep ocean
Prepare the gathering
Pray for the savior's coming
A glorious future king

Burning in 1999, drowning in 99

All felt before fake people come and go
Get high head-rush into this mental crush
Drug messiah make me warm your promises won't do
no harm
Trapped here with this dying race your touch my only
saving grace

Beyond the dark horizon
I hear the sirens sing
In traumatic devotion
Of what the future brings

Burning in 1999, drowning in 99
Burning in 1999, drowning in 99

With the taste of bitter freedom I'm sinking in your
world
I know deep inside your weeping about your life absurd
Silently your soul is screaming a scream that won't be
heard

No light no sound this world goes round and round
You rise you drown this world goes round and round
No light no sound this world goes round and round
You rise you drown this world goes round and round
This world goes round and round

Beneath the dark deep ocean

Prepare the gathering
Pray for the Savior's coming
A glorious future king

Burning in 1999, drowning in 99
