-----  
Deluding in mystirium, innocent deliverance  
Chosen minds are sailing, on waters of departure  
Leaving spells of deceit, giving light to the blind  
Dreaming with the war gods  
Searching for the true bringers of life  
Visions of tragedy, tearing you apart here  
Their spirits following, about to begin this  
Astral purgatory, screaming for the savior  
Heavenly illusions burning  
As they leave this darkened crypt behind  
An aura in front of thee, reaches out for my hand  
As tears fall from the trees, last days of freedom  
Maybe I'm coming home, but should I get lost here  
There's one thing guiding me  
I won't be afraid to let it go  
Reflection of rebirth  
King god of the universe  
Reflecting as you  
Smell the ovens apocalyptic atmosphere  
Perished nature harmony departed  
I've got the feeling I know what you dream  
Cryptic shadows darkening the screen

A different life's dimension  
Watch them kill the world we used to know  
Why am I the one that has to be there  
Another life's reflection  
Darker than the ones I've suffered through  
Barricades that make us fear each other  
No gods, no dictators  
Don't force me to return  
No gods, no frustration  
Don't force me to return  
To return  
Enter the tragedy, as I stand in front of you  
Take thy hand again, another spark of earth life  
Over the continents, shadows getting closer  
Darkening the firmament  
Until you come and take them all away  
Sounds of sirens echo through the black skies  
Symphonies of sadness as, her soul cries

Cryptic shadows as the war is over  
We shall not see the planet recover
