From the sky it came to bring
The seeds of slavery
For a mind insane an armageddon fantasy
Cure religion for the weak foundtion of all laws
Redefines philosophy a tyranny from above

Soul Eraser - penetrates your dying mind
Soul Eraser - takes your empty soul tonight

Immortal imperator from a planet far away
A comsiousless dictator hirarchy in mortal planes
A universal tyrant no emotions no regrets
Phantasmagoric dream disguise for a silent death

The sacred shrine is poisoned
A treasure for the dead
For thousand years a secret
In the dark great pyramid
See the gods descending

See our people die
Mighty kings of shadows
Cannot be destroyed

Mighty god-king save us from this scorn under the sun
Lead us to salvation as you say things will be done
All those years of suffering starvation and demise
End with the enthronement of the savior from the skies

Soul Eraser - penetrates your dying mind
Soul Eraser - takes your empty soul tonight

Immortal imperator from a planet far away
A comsiousless dictator hirarchy in mortal planes
A universal tyrant no emotions no regrets
Phantasmagoric dream disguise for a silent death
