Pesticide in torrents, how fast it flows
Total pollution the earth can't stand much longer
Chemical industry brings new diseases
The fear of self-destruction is growing stronger

Nuclear waste in an uncontrolled deluge
Reduces the earth to an airless planet
Reformation lies far away
Now is our only chance to save it

Contamination in every place
Condemns the human race
Everything will decay
Broken down by toxic trace

New plagues have come and soon there'll be more
Apocalypse not for the first time
Suppression is alive and this is for sure
Everyone will be annihilated

Enforcement of the last eclipse
Can't ignore predictions from the past
Ignore the warnings of ancient prophets
Every minute of your life could be your last

Contamination in every place
Condemns the human race
Everything will decay
Broken down by toxic trace

Metamorphosis of the earth to a lifeless desert
Voracity for richness, ruin of mankind
Craving more and more, till the world's requiem
This is the earth's last century

Now deprivation
From the things that count to make an easy life for me
Total confusion
For the non-believers who ignore the writings on the
wall

Times of suffering

For everyone, no-one can hide from reality
Social injustice
Will be no more, without exception, devastate all

Times have changed from the past to now
The earth is mankind's subject
Perfect creation stands over all
Experimenting with lethal objects

Domination, submission, demand for more
De-humanizes the brains of the rulers
What gives them the right to menace us all
This time will come but then it will be too late

Contamination in every place
Condemns the human race
Everything will decay
Broken down by toxic trace
