One with the voices  
Better left unheard  
One with the dark side  
The force that turns the earth

One of the mortal  
That ignorance protects  
Some unleash a future that takes foundation  
In their certain death

And I'm seeing red  
When I see your face  
And I scorn your name

There's a vision  
Brighter than the thousand suns  
Rulers fear to face the violence  
As stronger it becomes

'Til the day we die  
We have to live beneath this blackened sky  
'Til the day we die  
Under a total blackened sky

One with the dead souls  
That roam upon the land  
Time waits for no man  
Not even for the damned

One with the carrion  
Picking upon the flesh  
A perfect evil will prevail, delivering  
Remains left to infest

And I'm seeing red  
When I see your face  
And I scorn your name

There's a vision  
Brighter than the thousand suns  
Rulers fear to face the violence  
As stronger it becomes

'Til the day we die  
We have to live beneath this blackened sky  
'Til the day we die  
Under a total blackened sky

Fight, bound in fight  
Demons and Gods, Kaisers and fools  
Bound in a fight, once more for life  
Rich and the poor mongers of war  
Will heed the call

'Til the day we die  
We have to live beneath this blackened sky  
'Til the day we die  
Under a total blackened sky
