Whatever it may take  
Don't let them bring you down  
From the cradle to the grave  
Keep head above the ground

Whatever it may take  
Refuse to be enslaved  
The only thought that should exist  
Whatever it may take  
Whatever it may take

Whatever it may take  
Can't take it all away  
Trying to destroy you  
Your birth is my decay

Whatever it may take  
Don't capitulate  
Trust in no ones promises  
Whatever it may take  
Whatever it may take

Somewhere there'll be  
Another chance you'll see  
It's there for you  
Whatever it may take

If you would not exist I would be free  
If you would not exist I would be free  
If you would not exist I would be free  
If you would not exist I would be free

Somewhere there'll be  
Another chance you'll see  
It's there for you  
Whatever it may take  
Whatever it may take  
Whatever it may take
