(Verse 1)

Give me love, Give me love

Give me piece of mine

You say

Give me hope, Let me know

There's a little more time

You say

Let me in, Let me in

Can you just get me back

You say

don't shut me out, Shut me out

After all that you had

You say

(Bridge)

Sleepless nights of missing me

Wishing you were kissing me

You say this pain won't go away

But I promise you babe

(Chorus)

I know your gonna breath breath again

I know your gonna spread your wings again

I know you'll love again

Love again

I know your gonna fall fall again

But I know that you'll get back up again

I know you'll love again

Everybody's

(Verse 2)

Give me soul, Give me love

Give the best that I've had

Yeaaaaah

You say

When my push came to shove
you just didn't have me babe

You say

(Bridge)

Sleepless nights of missing me
Wishing you were kissing me
You say this pain won't go away
But I promise you babe

(Chorus)

I know your gonna breath breath again
I know your gonna spread your wings again
I know you'll love again
Love again
I know your gonna fall fall again
But I know that you'll get back up again
I know you'll love again
Everybody's

(Chorus)

I know your gonna breath breath again
I know your gonna spread your wings again
I know you'll love again
Love again
I know your gonna fall fall again
But I know that you'll get back up again
I know you'll love again
Everybody's
