Tonight's the night, better make it fast 'cause it feels  
alright

This is the time, you know 'cause he told, he said

It's nothing like the sun better than the moon that  
shimmers so nice

It's prettier than your eyes even though they're little  
stars

Get it on, you'll make it feel alright  
Break her heart you know you can  
She'll feel like hell but why should you care  
My God you don't even mind, yeah  
Don't even mind, yeah  
Yeah

It worked again, you know how to get her this far  
She thought you were soulmates, well, how foolish can  
you be  
She doesn't make it too hard, she'd rather be too fast  
instead of losing you  
She probably knows she'll regret but that doesn't  
matter now

Get it on, you'll make it feel alright  
Break her heart you know you can  
She'll feel like hell but why should you care  
My God you don't even mind, yeah  
Don't even mind, yeah  
Yeah

Get it on now, just make it fast, it feels alright  
Be the only one, at least that is what she thinks  
Disappoint her, God you don't even mind  
Break her heart now, you did  
He took you home yeah, that's how fast you let it come  
Be the only one, well what do you really think  
You are lost now and who really is to blame  
He broke your heart yeah, he did, yeah

Get it on, you'll make it feel alright  
Break her heart you know you can

She'll feel like hell but why should you care  
My God you don't even mind, yeah  
Don't even mind, yeah

Get it on, you'll make it feel alright  
Break her heart you know you can  
She'll feel like hell but why should you care  
My God you don't even mind, yeah  
Don't even mind, yeah  
Yeah
