Afraid, you're alone now I'll help you, I want to  
No chance that you'll get here, get you, can't find you,  
no  
Still mad at your mama, defend her at the same time  
You love her, do you know it, should not go this way

I just want to know, are you happy now?  
By chance want to see, see you one more time  
I only want to hear, how you're doing now  
I want to believe that you're happy now

Who is your boyfriend  
Does he treat you right?  
Has he gone too far?  
Or haven't you let him

I just want to know are you happy now  
By chance want to see, see you one more time  
I only want to hear how you're doing now  
I want to believe that you're happy now

Yeah, are you happy now or not?  
Promise me, promise me now  
You, oh, yeah no  
Yeah, no, yeah

Just want to know, are you happy now?  
By just want to see, see you one more time  
I only want to hear how you're doing now  
I want to believe that you're happy now  
I want to believe that you're happy now
