Wake up slowly I feel ripped off when they're not here,  
'cause it's  
Cold and lonely silent when they're not here  
I'm alone they are gone but it goes like this, and

I will be gone  
Getting into my dreams  
I've listened to what they told me  
About how it's going to be  
How it's going to be

Wake up slowly I feel ripped off when they're not here,  
'cause it's  
Cold and lonely silent when they're not here  
I'm alone they are gone but it goes like this, and

I will be gone  
Getting into my dreams  
I've listened to what they told me  
About how it's going to be  
How it's going to be

Yes you've told me and it's true  
I'm not likely to be you  
Everybody said I would  
Now I know I'm not

Just a matter of time embrace me  
You're my light in the dark  
Could you be here or could you not be  
You're my everything

I will be gone  
Getting into my dreams  
I've listened to what they told me  
About how it's going to be  
How it's going to be
