"Look What You've Done"

Visit "[Look What You've Done](#)" on MotoLyrics.com

You're taking me with you to sit by the sea
The sun's on the rise as the sand hides my feet
Burning the sky and makes us feel free
The way that you need me, I know that you see me
Look what you've done with my life

The sun says goodbye as the bus light their lines
Let's go inside, have a fine glass of wine
Wherever tomorrow may bring us
I know that you love me and every part of me
Look what you've done with my life
With my life

'Cause baby I love you and every part of you
Look what you've done with my life
Look what you've done with my life
