I, I felt your arms were leaving me alone
I could feel something dragged you away

You didn't care to leave me here
You didn't see I was alone
Your ears were deaf 'cause someone whispered
You were leaving me alone

Now, my breath is stucked inside my throat
Try to hold on to something try to make you
understand
But you didn't want to hear it and now you're someone
else

I, I felt your arms were giving me away
I could see you changing more and more

You didn't care to leave me here
You didn't see I was alone
Your ears were deaf 'cause someone whispered
You were leaving me alone

Now my breath is stucked inside my throat
Try to hold on to something try to make you
understand
But you didn't want to hear it and now you're someone
else

Can make me laugh, can make me cry tell me anything
but why
Yes I tried to shut the door but you didn't even saw
No, you didn't even saw

Now my breath is stucked inside my throat
Try to hold on to something try to make you
understand
But you didn't want to hear it and now you're someone
else
And now you're someone else
You're someone else
Now you're someone else
