

## Krezip "What It Takes"

Visit "[What It Takes](#)" on MotoLyrics.com

Do I got what it takes  
to be down on the ground like you are (and still go on)  
Can I feel what it is  
to be loving my life like you're loving it (cause you're  
loving it all)

The strongest will survive  
You've all got the strength to fight  
But haven't all got the right

Do I got what it takes  
to be running to be far away from home  
Realize what is to know  
not to know if you ever can return (to the ones you love)

The strongest will survive  
You've all got the strength to fight

But haven't all got the right

What will you feel when you see us like this  
Will you understand why it is

So you explained that you understand life  
Right after you told me I did

What will you feel when you see us like this  
Will you take it home like I did
