Gotta the city pon lock  
Mis-Teeq  
Know how fi rock

Keep you bubbling every day and every night  
We don't wanna see you argue  
Fuss and fight  
All we wanna do is dance and feel the vibe  
Make you feel nice

DJ take back this track, hit them again the reaction is  
phat  
Hit them again are you feeling that?  
Music is life it's a natural fact  
The people with the power they make you feel poor  
I wanna see the people on the dance floor  
So here I come again with a lyric hardcore  
I know I'm still raw but finding rhymes on deadline is  
law  
Taste entertainment you know you want more  
With the vibing galore upon the dancefloor  
The people go mad they make you explore  
Different ways to reach an applause  
This goes out for a worthy cause  
Just move-a ya body, that's what it is for  
Move-a ya body, the crowd's wanting more

You can't take us away from the music  
Tantalising you can't refuse it  
Beats b-line, move ya body  
Don't you lose it  
Dance til the morning comes

It's the weekend, no time for sleeping  
We got ya body rocking, move to the track best  
believing  
Seeing is believing as I'm riding on this track  
Mis-Teeq got the city pon lock  
Sit down pon the riddem cos we know how fi rock  
Gridlock, roadblock, the show never stops  
As we take it back just for you my friend  
Rewind fi al the gyal dem

Sometimes just gotta escape  
Stay dreaming while you wake  
No matter come what may  
Turn the music up and  
Dance your cares away

You can't take us away from the music  
Tantalising you can't refuse it  
Beats b-line, move ya body  
Don't you lose it  
Dance til the morning comes

Gotta the city pon lock  
Mis-Teeq
