I, I started to cry

I, I started to cry  
I started crying, I started crying  
I started crying, I started crying  
I, I started to cry

Goodnight baby, I'd rather dream  
Than see where we're going awake  
So I close my eyes and fantasize  
About our love and the way it used to be

Candlelight, holdin' hands, making a lifetime of plans  
We let our desires lead the way  
My house, your car and then our child  
Oh, what a life, I woke up and started to cry

I, I started to cry  
I started crying, I started crying  
I started crying, I started crying  
I, I started to cry

I, I started to cry

Tell me, tell me you've got news for me  
Tell me that's not the way it has to be  
That we can make love like we did before  
And make war no more

Now you're kissin' me, and I like that  
Now you're tellin' me, everything is gonna be alright  
How our love can be, it can be better than it was before  
Tell me, tell me more, tell me more

You look me in my eyes and tell me you've changed  
And tell me, I don't ever have to change my name  
You smiled at me and then we started to fly  
Oh what a life, I woke up and started to cry

I, I started to cry  
I started crying, I started crying  
I started crying, I started crying

I, I started to cry

I, I started to cry  
I started crying, I started crying  
I started crying, I started crying

I, I started to cry  
I started crying, I started crying  
I, I started to cry
