Your love's supreme (your love's supreme),
it's the best thing (it's the best thing),
your love's supreme (your love's supreme),
your love's supreme.

How can I love you (love you), let me start counting
now,
all of the ways that you're comin' at me,
I just can't describe.
Goin' from a to z, 1, 2, 3,
and everything in between I go,
straight to the stars, and I hear them say...

Your love's supreme, it's the best thing (besidfes
heaven),
your love's supreme (heaven), your love's supreme.

I'm breakin' it down (down), so you can know,
how deep, how deep inside you're makin' me go.
Don't stop, can't wait, no holdin' back,
don't run, don't waste, don't rush me,
just savor the moment and yield to the flow of love...

Your love's supreme, it's the best thing (they tell me of
love),
your love's supreme, your love's supreme (you're
love's the best thing I know).

Your love's supreme, it's the best thing (deeper and
deeper I go),
your love's supreme (I go), your love's supreme.

It's everything you are (It's everything you are),
it's everything and more (it's everything and more),
it's unconditional, yeah, this love,

(Your love's supreme, it's the best thing) oh they tell
me of love,
(your love's supreme) I'd sacrifice everything (your
love's supreme),
(your love's supreme) for a love... (it's the best thing)
supreme,

(your love's supreme, your love's supreme).

Your love's supreme (it's the best thing),
I can search the world over (there would still be no
other),
heaven sent down your love (you gave it to me),
no doubt in my mind (your love is supreme).

Your love's supreme, it's the best thing (it's the best
thing),
your love's supreme (your love), your love's supreme
(supreme).

Your love's supreme (your love), it's the best thing (is
supreme),
your love's supreme, your love's supreme (heaven told
me I'll be your love).

Your love's supreme, it's the best thing (your love, your
love),
your love's supreme, your love's supreme.

Your love's supreme.
