Everybody called the lady Easy
For the way the lady was to please
Everybody told her she was crazy
Lovin' all the love away for free

People hate to see you make it, Easy
They'll never understand
Some take life for granted 'cause it seems to take so
long
Easy takes it anyway she can

Easy, come on, take it easy, come on
Here we go again, let it go as easy as you can
It's the sweetest and the saddest place a body's ever
been
Feelin' Easy come and go again

Easy to please, she was crazy and free
So let's take out time and make it, Easy

Bring that bottle from the shelf
Everybody's laughin' when there's money, love and
friends
When they're gone, the jokes are on yourself
Easy, come on, take it easy, come on, here we go
again

Let it go as easy as you can
Easy, come on, take it easy, come on, here we go
again

Bring us down a bottle from the shelf
'Cause it's easy, come to anyone with money, love and
friends
When they're gone, the jokes are on yourself
Easy, come on, take it easy, come on, here we go
again
